

# Aqualyte

## HYDRATION • HEALTH PERFORMANCE

-  Low sugar
-  Rapid absorption
-  Aids performance
-  Great taste, natural flavours
-  Evidence-based formulation

Aqualyte was formulated after our extensive research into the prevention of dehydration and has been specifically formulated for prolonged use by athletes and workers.

## WHY AQUALYTE?

- Fewer calories and less acidic than many other drinks, making it a healthier alternative
- Rapid absorption which prevents a feeling of fullness and keeps pace with sweat loss
- Prevents dehydration thereby aiding performance and concentration in work and sport
- Helps prevent fatigue by providing appropriate levels of energy for work or exercise
- Maintenance of electrolyte levels
- Natural flavours and gluten free
