

Druglizer LE5

drug tester

THE ULTIMATE HANDHELD DRUG TESTING SOLUTION

- ✓ Rapid, accurate results from 90 seconds
- ✓ Clear, visual electronic display
- ✓ Cost-effective drug testing
- ✓ Easy to use operation
- ✓ Electronic cartridge batch validation

The LE5 Drug Tester is a fast, accurate drug testing unit for law enforcement and industrial workforces around the world.

ACCURATE, FAST, LAW ENFORCEMENT GRADE DRUG TESTING

LE5 Drug Tester technology incorporates state-of-the-art Linear Detector Arrays and a patented Optical Filtering System to deliver accurate and fast drug test results from just 90 seconds. Results are clearly defined and displayed so the user is not required to interpret the presence of a line like other test devices.

MULTI-DRUG GROUPS TESTING

Developed to detect a variety of drug groups, LE5 Drug Tester is configured to target concentrations as specified under Australian Standards AS 4760-2006.

FAST, EASY CALIBRATION

Maximum unit availability – the module exchange system enables easy on-site calibration. Achieve long term savings via reduced unit management and no operational disruption.

ROBUST AND DURABLE

Designed and made for demanding conditions, the LE5 Drug Tester delivers outstanding performance in rugged and remote environments.

SERVICE AND SUPPORT

Each LE5 Drug Tester module has a product lifetime warranty on the parts when maintained under an AlcoCARE™ plan.

The LE5 Drug Tester is supported by a global network of service providers and factory trained professional technicians for service and calibration every 6 months.

LE5 INNOVATION

WORLD-FIRST: ALCOHOL & DRUG TESTING

Continuing in world-first innovations, Alcolizer Technology has developed the LE5 to test both alcohol and drugs in one easy to use system.

- ✓ Rapid and accurate results
- ✓ Law enforcement grade testing
- ✓ Fast, easy module exchange calibration
- ✓ Cost-effective alcohol and drug tester

Get the complete alcohol and drug testing system.

ACCURACY ▶ Designed to Australian Standards AS 4760-2006 (Procedures for specimen collection and the detection and quantitation of drugs in oral fluid)

TEST TIME ▶ Test results from 90 seconds

DISPLAY ▶ Transreflective colour graphics LCD screen

MOUTHPIECE ▶ Druglizer Oral Fluid Collector

CALIBRATION ▶ Module exchange system for on-site calibration

POWER SUPPLY ▶ Rechargeable Li-Ion battery system

WEIGHT ▶ 310g (including battery and cover)

DIMENSIONS ▶ 196mm H x 66mm W x 43mm D

DRUGLIZER LE5 CONSUMABLES

Druglizer Cartridge

Insert into an active Druglizer LE5's sample module prior to testing.
Each Druglizer Cartridge is packaged together in a pouch with a Druglizer Oral Fluid Collector.

Druglizer Oral Fluid Collector

The Collector is utilised by a subject to collect oral fluid (saliva).
Its circular indicator will turn a consistent blue when sufficient saliva has been collected.

AlcoCONNECT

AlcoCONNECT™ Live Data Management system combines Alcolizer's innovative testing technology with state-of-the-art business solutions. It is the ideal tool for safety and business managers seeking real-time, analysed drug and alcohol test results across their business.

AlcoCARE

AlcoCARE™ is a customer support service that provides fast, professional product and technical support for all your Alcolizer products, either on-site or through our efficient return-to-base calibration and support service centre network.

AlcoTRAIN

Alcolizer's dedicated AlcoTRAIN team focus on developing leading-edge training programs for a wide variety of applications. In addition to the standard training programs, we welcome enquiries to discuss custom training and have a reputation for designing training and educational content to match unique customer needs.
